## EXPERIENCE

---

<b>Full Stack Developer Intern</b>	June-July 2022
------------------------------------	----------------

Robust Result Private Limited	<i>Remote</i>
-------------------------------	---------------

- Developed a full-stack blog website utilizing HTML, CSS, and JavaScript for the frontend, and SQL and PHP for the backend.
- Designed and implemented an admin panel to enhance management capabilities, streamlining content moderation and user management processes.
- Gained hands-on experience in full-stack development, working on both client-side and server-side components.
- Collaborated with a team of developers to deliver a functional and user-friendly web application within a tight timeline.

## PROJECTS

---

### Personal Portfolio Website :

- Created a dynamic portfolio using HTML, CSS, JavaScript, React.js, and Tailwind CSS to showcase projects and skills.
- Focused on responsive design and interactive user experience to highlight proficiency in modern web development technologies.

### Captions Generator Video App :

- Developed a captions generator for videos using Next.js and React, enabling seamless integration of dynamic captions.
- Focused on intuitive UI/UX, ensuring users can easily add, edit, and synchronize captions with video content.

### Chat Application :

- Built a real-time chat application using React for the frontend and Firebase for the backend.
- Implemented features such as user authentication, message storage, and instant messaging for a seamless communication experience.
